Portfolio: malusis.tech | GitHub: github.com/MalusiS | LinkedIn: linkedin.com/in/malusis

Professional Summary

Detail-oriented Software Engineer with an accounting background, blending analytical precision with modern web architecture. Founder of WorkCentrik, a digital agency delivering production-grade web platforms using React, JavaScript, and modern CSS. Designs and develops web platforms with a focus on accessibility, performance, maintainability, and user experience. Currently expanding expertise through a rigorous, self-directed B.Sc. in Computer Science (Systems & Software Engineering), modeled after MIT, Stanford, and CMU curricula, focusing on distributed systems, operating systems, and infrastructure engineering.

Technical Skills

- **Front-End Engineering:** JavaScript (ES6+), React, Next.js, HTML5, CSS3, Tailwind CSS, Sass, Redux, Responsive Design, Accessibility Engineering (WCAG AA).
- **Back-End & Data:** Node.js, SQL, REST APIs, JSON/LocalStorage.
- **DevOps & Infrastructure:** Git, GitHub, CI/CD, Linux, Netlify, Vite.
- **Software Engineering:** Test-Driven Development (TDD), Unit Testing, Code Reviews, Agile Development, Kanban, Technical Documentation, Performance Optimization, Technical SEO.

Professional Experience

Founder & Lead Engineer | WorkCentrik | Cape Town | Dec 2025 – Present

- Founded and directing a digital agency delivering production-grade web platforms, digital infrastructure, and technology services for businesses and organizations.
- Architect and engineer high-performance, fully accessible single-page and multi-page applications achieving verified 100/100 Google Lighthouse scores.
- Manage end-to-end client engagements encompassing requirements gathering, system architecture, UI/UX design, development, deployment, and ongoing maintenance.

Mentor (Intro to Digital Programme) | CodeYourFuture | Remote | July 2025 – Present

- Mentor trainees in HTML, CSS, and JavaScript fundamentals, guiding them from zero to deploying full web applications.
- Provide technical guidance, code reviews, and feedback to support trainees in problem-solving.

Owner / Manager | Self-Employed (Transportation) | Cape Town | 2021 – 2026

- Managed daily operations, logistics, scheduling, and customer relationships for a transportation business, serving a diverse client base with high reliability standards.
- Oversaw financial administration and operational analytics to maintain profitability.
- Developed strong client management, negotiation, and operational efficiency.

Creditors Bookkeeper | QuickSILVA Group | Cape Town | 2019 – 2020

- Managed supplier reconciliations and accounts payable processes for a construction plant hire company.
- Implemented strict data-validation processes to identify discrepancies and improve financial accuracy.

Creditors Clerk | Food Lover's Market Holdings | Cape Town | 2017 – 2019

- Conducted vendor reconciliations and detailed account analysis for a major retail group.
- Identified and resolved financial discrepancies, ensuring accurate ledger maintenance and timely payment processing.

Featured Technical Projects

WorkCentrik Corporate Website | React 18, Vite, Custom CSS3, Formspree, Lucide React
workcentrik.com

- Engineered a premium, Lighthouse-100 optimized corporate website focusing on bespoke UI design, flawless accessibility, and technical SEO.
- Designed a custom IntersectionObserver ScrollSpy with reverse DOM-order evaluation for precise navigation tracking across dynamic layouts.
- Implemented a dual-channel lead generation system featuring dynamic WhatsApp routing and seamless Formspree integration.

AMO South Africa — Official Website | React 18, React Router, Vite, Tailwind CSS, Netlify
amosouthafrica.org

- Developed a high-performance, multi-page Single Page Application (SPA) utilizing a modern dark-themed aesthetic and glassmorphism to drive non-profit community engagement.
- Architected a persistent global layout integrated with serverless Netlify Forms for secure, backend-free message routing directly to the organization's inbox.
- Delivered a fully responsive, WCAG AA compliant interface achieving a verified 100/100 Lighthouse accessibility score.

Engineering Portfolio | React 19, Vite 7, Tailwind CSS v4, Netlify malusis.tech

- Architected a production-grade, config-driven portfolio, decoupling UI presentation from project data to create a scalable, tiered project hierarchy.
- Engineered for elite performance and accessibility, utilizing *React.lazy* and *Suspense* for modal code-splitting to guarantee a verified 100/100 Lighthouse score.
- Optimized asset delivery and integrated comprehensive JSON-LD and OpenGraph meta tagging to maximize technical SEO and social sharing performance.

Education

B.Sc. Computer Science (Systems & Software Engineering)

Independent Study | 2026 – 2031

- **Curriculum:** 176 Semester Credits modeled after MIT, Stanford, and CMU core CS.
- **Specialization:** Software Engineering, Distributed Systems, Cloud Infrastructure, and Security Engineering.
- **Current Progress:** Year 1 (Foundations, Math, and Core Programming).
 - Harvard CS50x — Introduction to Computer Science
 - Harvard CS50W — Web Programming with Python and JavaScript
 - MIT 18.01 — Calculus I & II
 - MIT 6.042J — Mathematics for Computer Science
 - MIT 18.06 — Linear Algebra
 - University of Helsinki — Java Programming I & II
 - MIT 8.01 — Physics I

Introduction to Programming | CodeYourFuture | 2025

- Intensive bootcamp covering HTML, CSS, JavaScript fundamentals, and full web application deployment.

Diploma in Coding & Technology | Upskillist | 2024

- Comprehensive diploma covering software development fundamentals, web technologies, and programming best practices.

Developer Certifications | freeCodeCamp | 2024

- Responsive Web Design, JavaScript Algorithms and Data Structures, Front-End Libraries, Data Visualization.

Web Design Certificate | University of Cape Town | 2023

- Foundations in web design principles, UX/UI basics, and responsive design techniques.

Bookkeeping Certificate | Boston City Campus, Cape Town | 2017

- Financial program covering bookkeeping, financial accounting, payroll administration, tax compliance, and practical business literacy.
-
